

Suspended

An Industrial light is used to illuminate with climate resistance and durability. It has special features with industrial style fixtures to be perfectly installed in production workshops, warehouses, factories, tunnels, Supermarket, Landscape and much more. Our high-quality LEDs reduce energy consumption while providing more illumination. Low glare, high CRI index (>Ra80), accurate color rendering. Do you need high bay lighting, we have the best solution for your specific application like workshops, warehouses, supermarkets, landscapes, factories, and tunnels.

HOUSING: Die Cast Aluminum

REFLECTOR: Anodized Aluminum

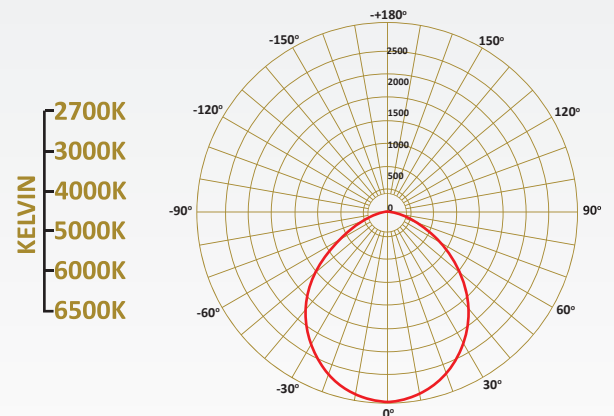

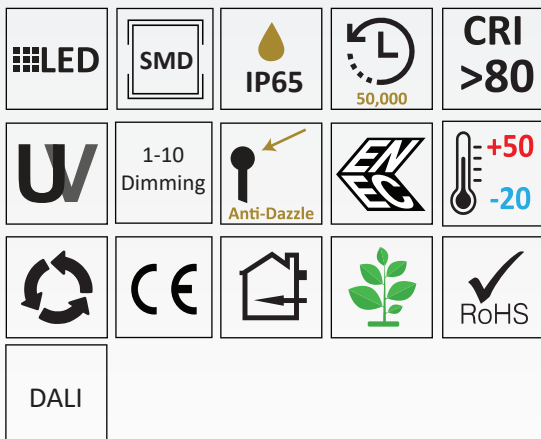

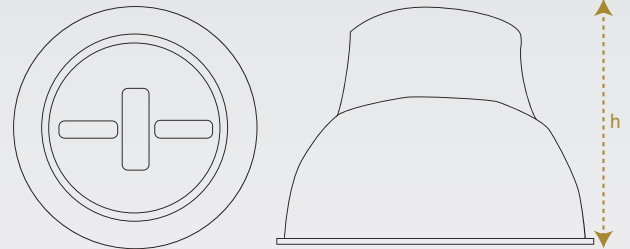

LED: Reducy Energy Consumption with L80/B10/F10

AVERAGE LIFE:50,000 hrs Lifetime Working Under Temp (-20°C - 50°C)

Technical Specifications

Item Code	Power	LED Qtyt	Lumen	Dimension
PLP406100	100W	13000W	7700lm	Ø421x385h
PLP406120	120W	15600W	15400lm	Ø421x385h
PLP406150	150W	19500W	21700lm	Ø421x385h
PLP406180	180W	23400W	29120lm	Ø421x385h
