

UP Lights

An Up light is a type of outdoor lighting that shines upward from the ground. Up light is not just for an architectural piece, it is also for landscape, and special features. From die cast aluminium body, this fixture is designed for years of use. You can install it in the ground, whether it's soil or gravel. The light body adopts the 6063 aluminium alloy moulding, surfaced with anodizing treatment. Do you need in-ground lighting, we have the best solution for your specific application like pathways, parks, gardens.

- HOUSING:** Die cast aluminium with stainless steel cover 309,316 trim
